

Connect to
absolute confidence.

Quality means
never having to say
you're sorry.

At Array, we have a simple philosophy: every component is mission critical and failure is never an option. You can't settle for less than perfection – neither can we.

You'll find Array connectors in the mil/aero, commercial, industrial and geophysical and electronics industries. From military aircraft to MRI equipment, from satellite tracking towers to manufacturing controls, systems

For more than 20 years Array has been making connectors that are trusted in mil/aero, commercial, industrial and geophysical, and electronics industries.

that have to perform perfectly every time rely on Array.

What sets us apart is better engineering, problem solving expertise, total quality, on-time delivery and top-flight customer service. All at competitive prices.

That's not just a promise...it's a proven track record. Take a look at our 20+ year history and over 500 customers worldwide.

It's perfect,
or it's nothing.

Perfection. It's just another day at the office.

The Array quality advantage is clear. Most of our competitors outsource design or production. On our Miami campus, we design, prototype, test, tool and manufacture every connector we make.

In our facility we provide in-house design labs, plastic molding, metal fabrication, machine shop, assembly and quality-assurance test labs. The result? We have 100% control in designing solutions that meet the most intricate needs, provide unquestioned reliability and arrive on time and on budget.

We design, prototype, test, tool and manufacture every connector at our Miami campus.

If we don't make it,
we'll invent it.

What's new?
Array is ready to
keep pace with
your innovations.

If we don't already make the solution you need, we'll invent it. Our American-based engineers have decades of experience in connectors and your industry. They're veteran problem-solvers with all the facilities and

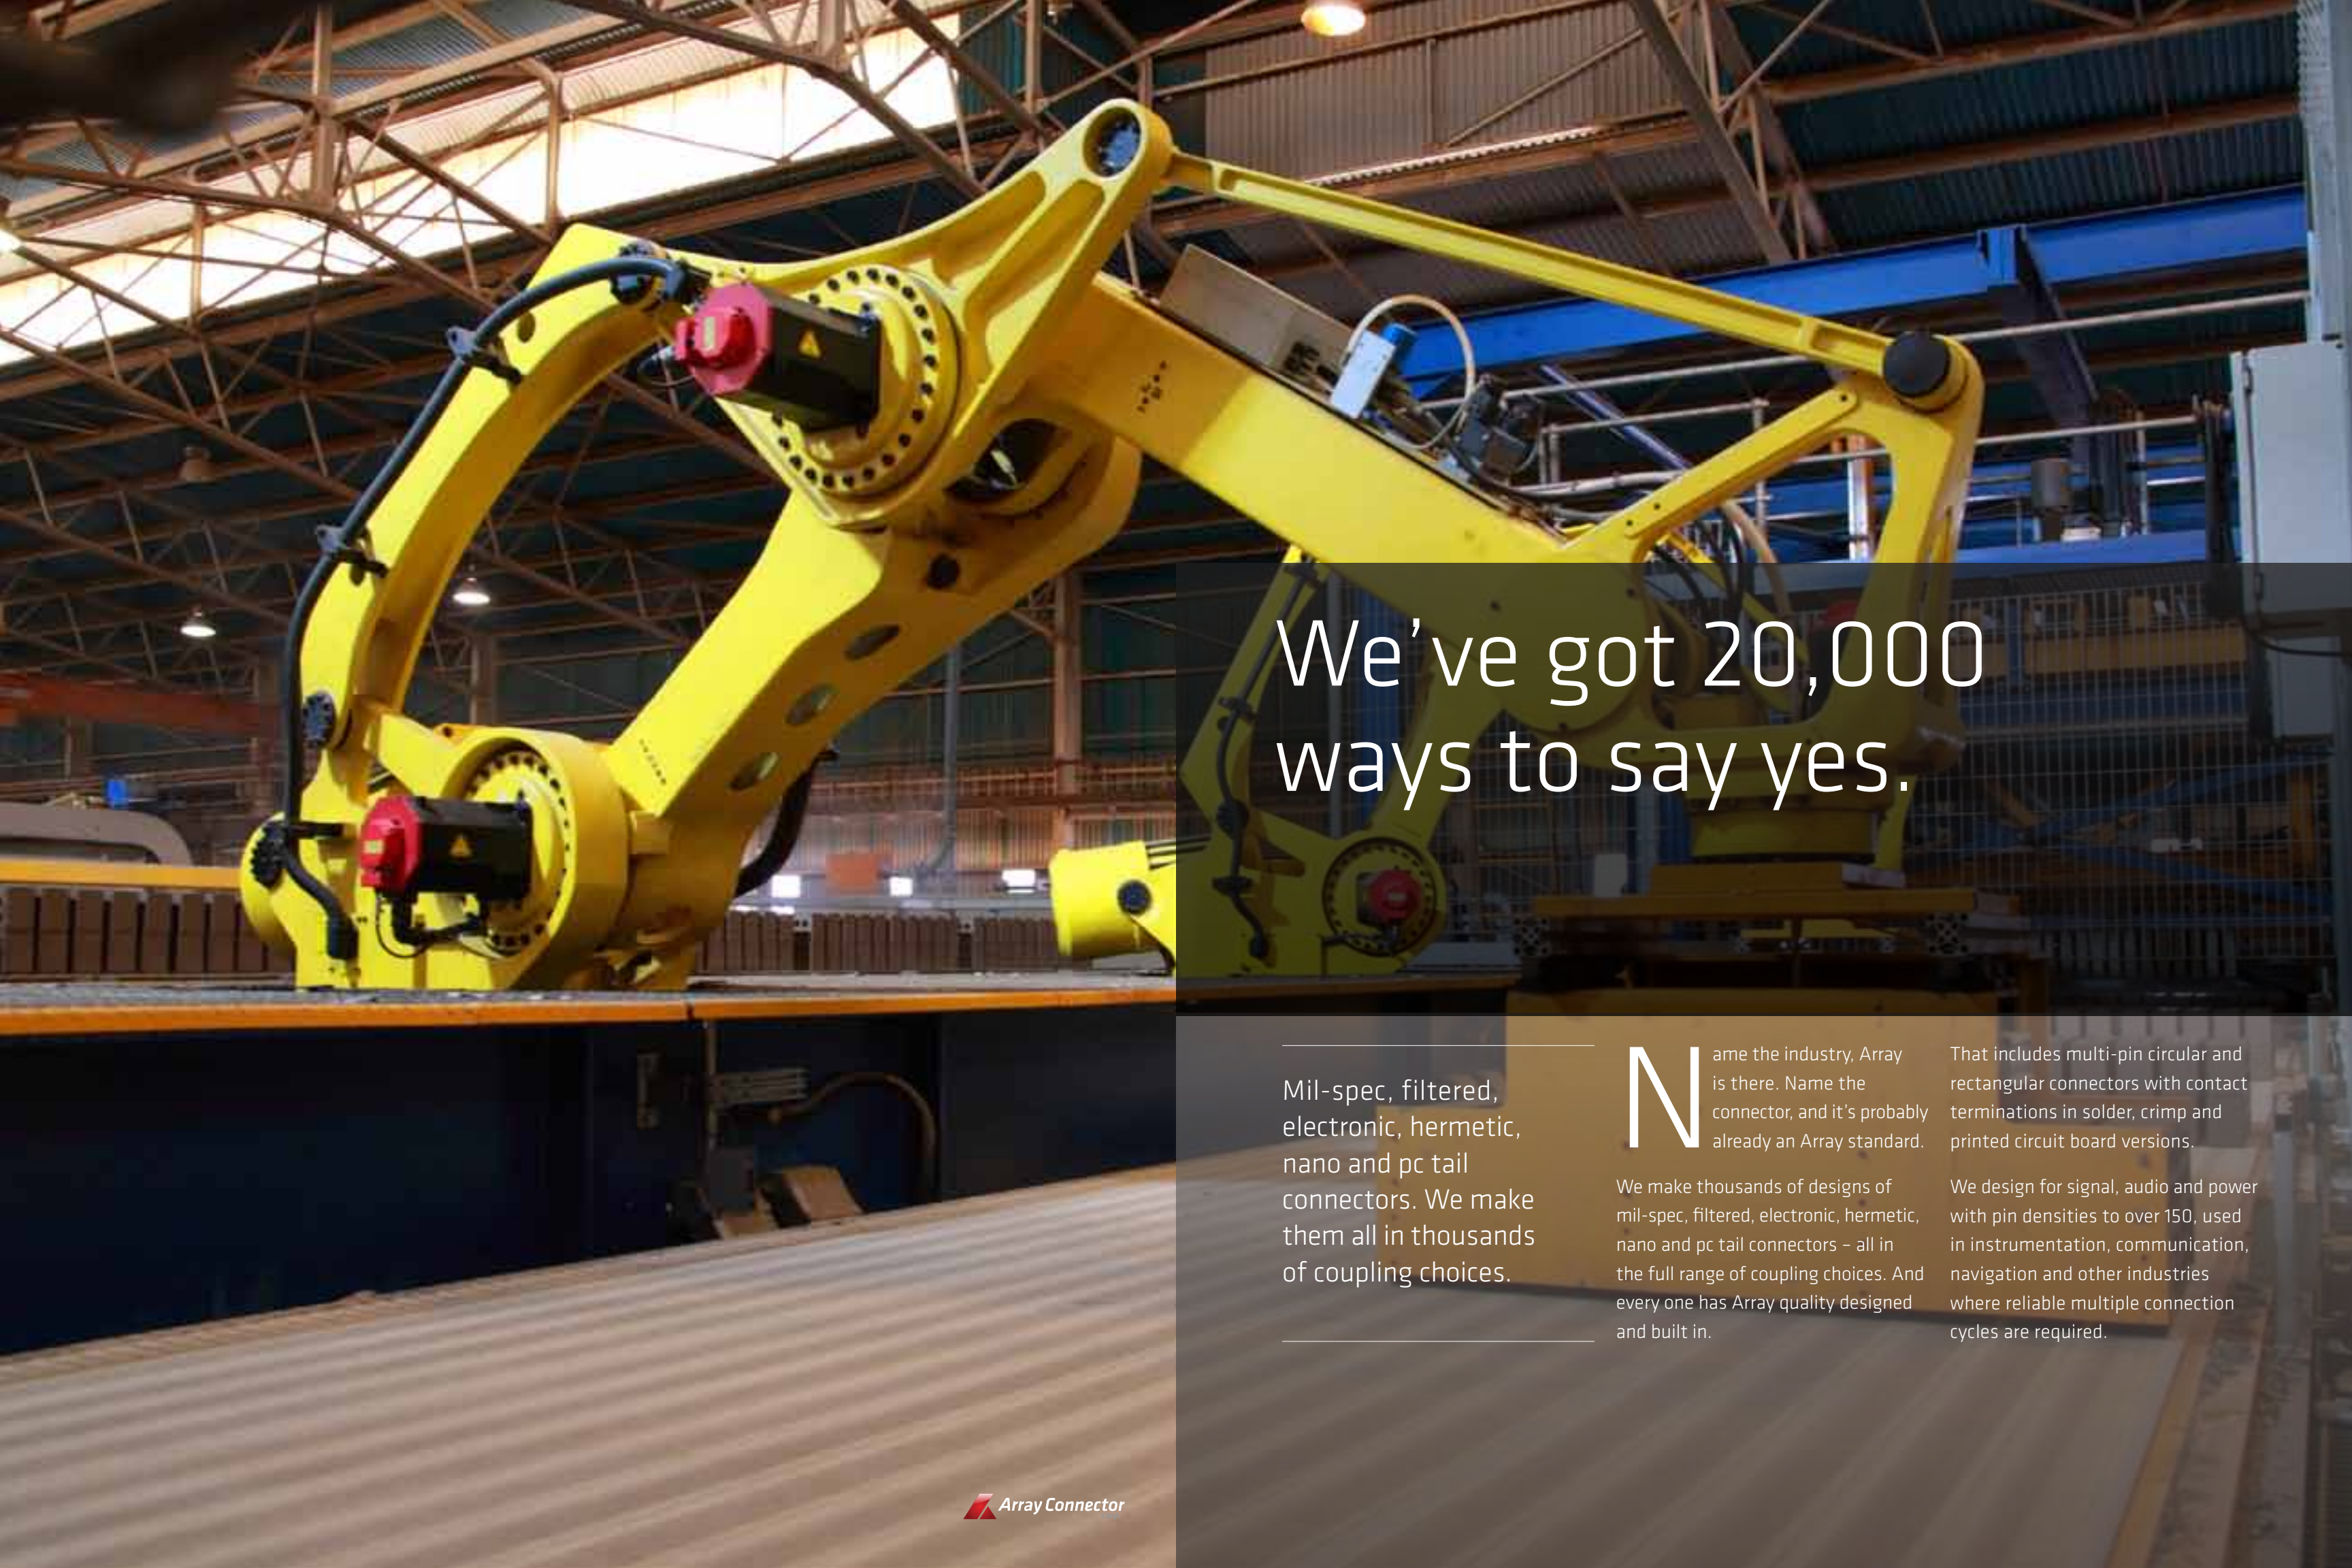

Custom work is about
problem solving.
No one does it better,
faster or smarter than
our American-based
engineers.

personnel they need to meet your challenge at their fingertips – from concept to design, manufacturing to testing.

Array designs for tight budgets and timelines, too. Often our custom designs come in at off-the-shelf cost and on surprisingly streamlined lead times.

Failure is not an option.

We've got 20,000 ways to say yes.

Mil-spec, filtered, electronic, hermetic, nano and pc tail connectors. We make them all in thousands of coupling choices.

Name the industry, Array is there. Name the connector, and it's probably already an Array standard.

We make thousands of designs of mil-spec, filtered, electronic, hermetic, nano and pc tail connectors – all in the full range of coupling choices. And every one has Array quality designed and built in.

That includes multi-pin circular and rectangular connectors with contact terminations in solder, crimp and printed circuit board versions.

We design for signal, audio and power with pin densities to over 150, used in instrumentation, communication, navigation and other industries where reliable multiple connection cycles are required.

Put us to the test.

We set high standards for ourselves at Array, but that's just the start. We have the certifications and approvals that let you know that we're tested and proven.

- Quality system has been certified and is registered to AS9100 and ISO9001-2000.

- Quality system audited and approved by ITS Intertek Services,

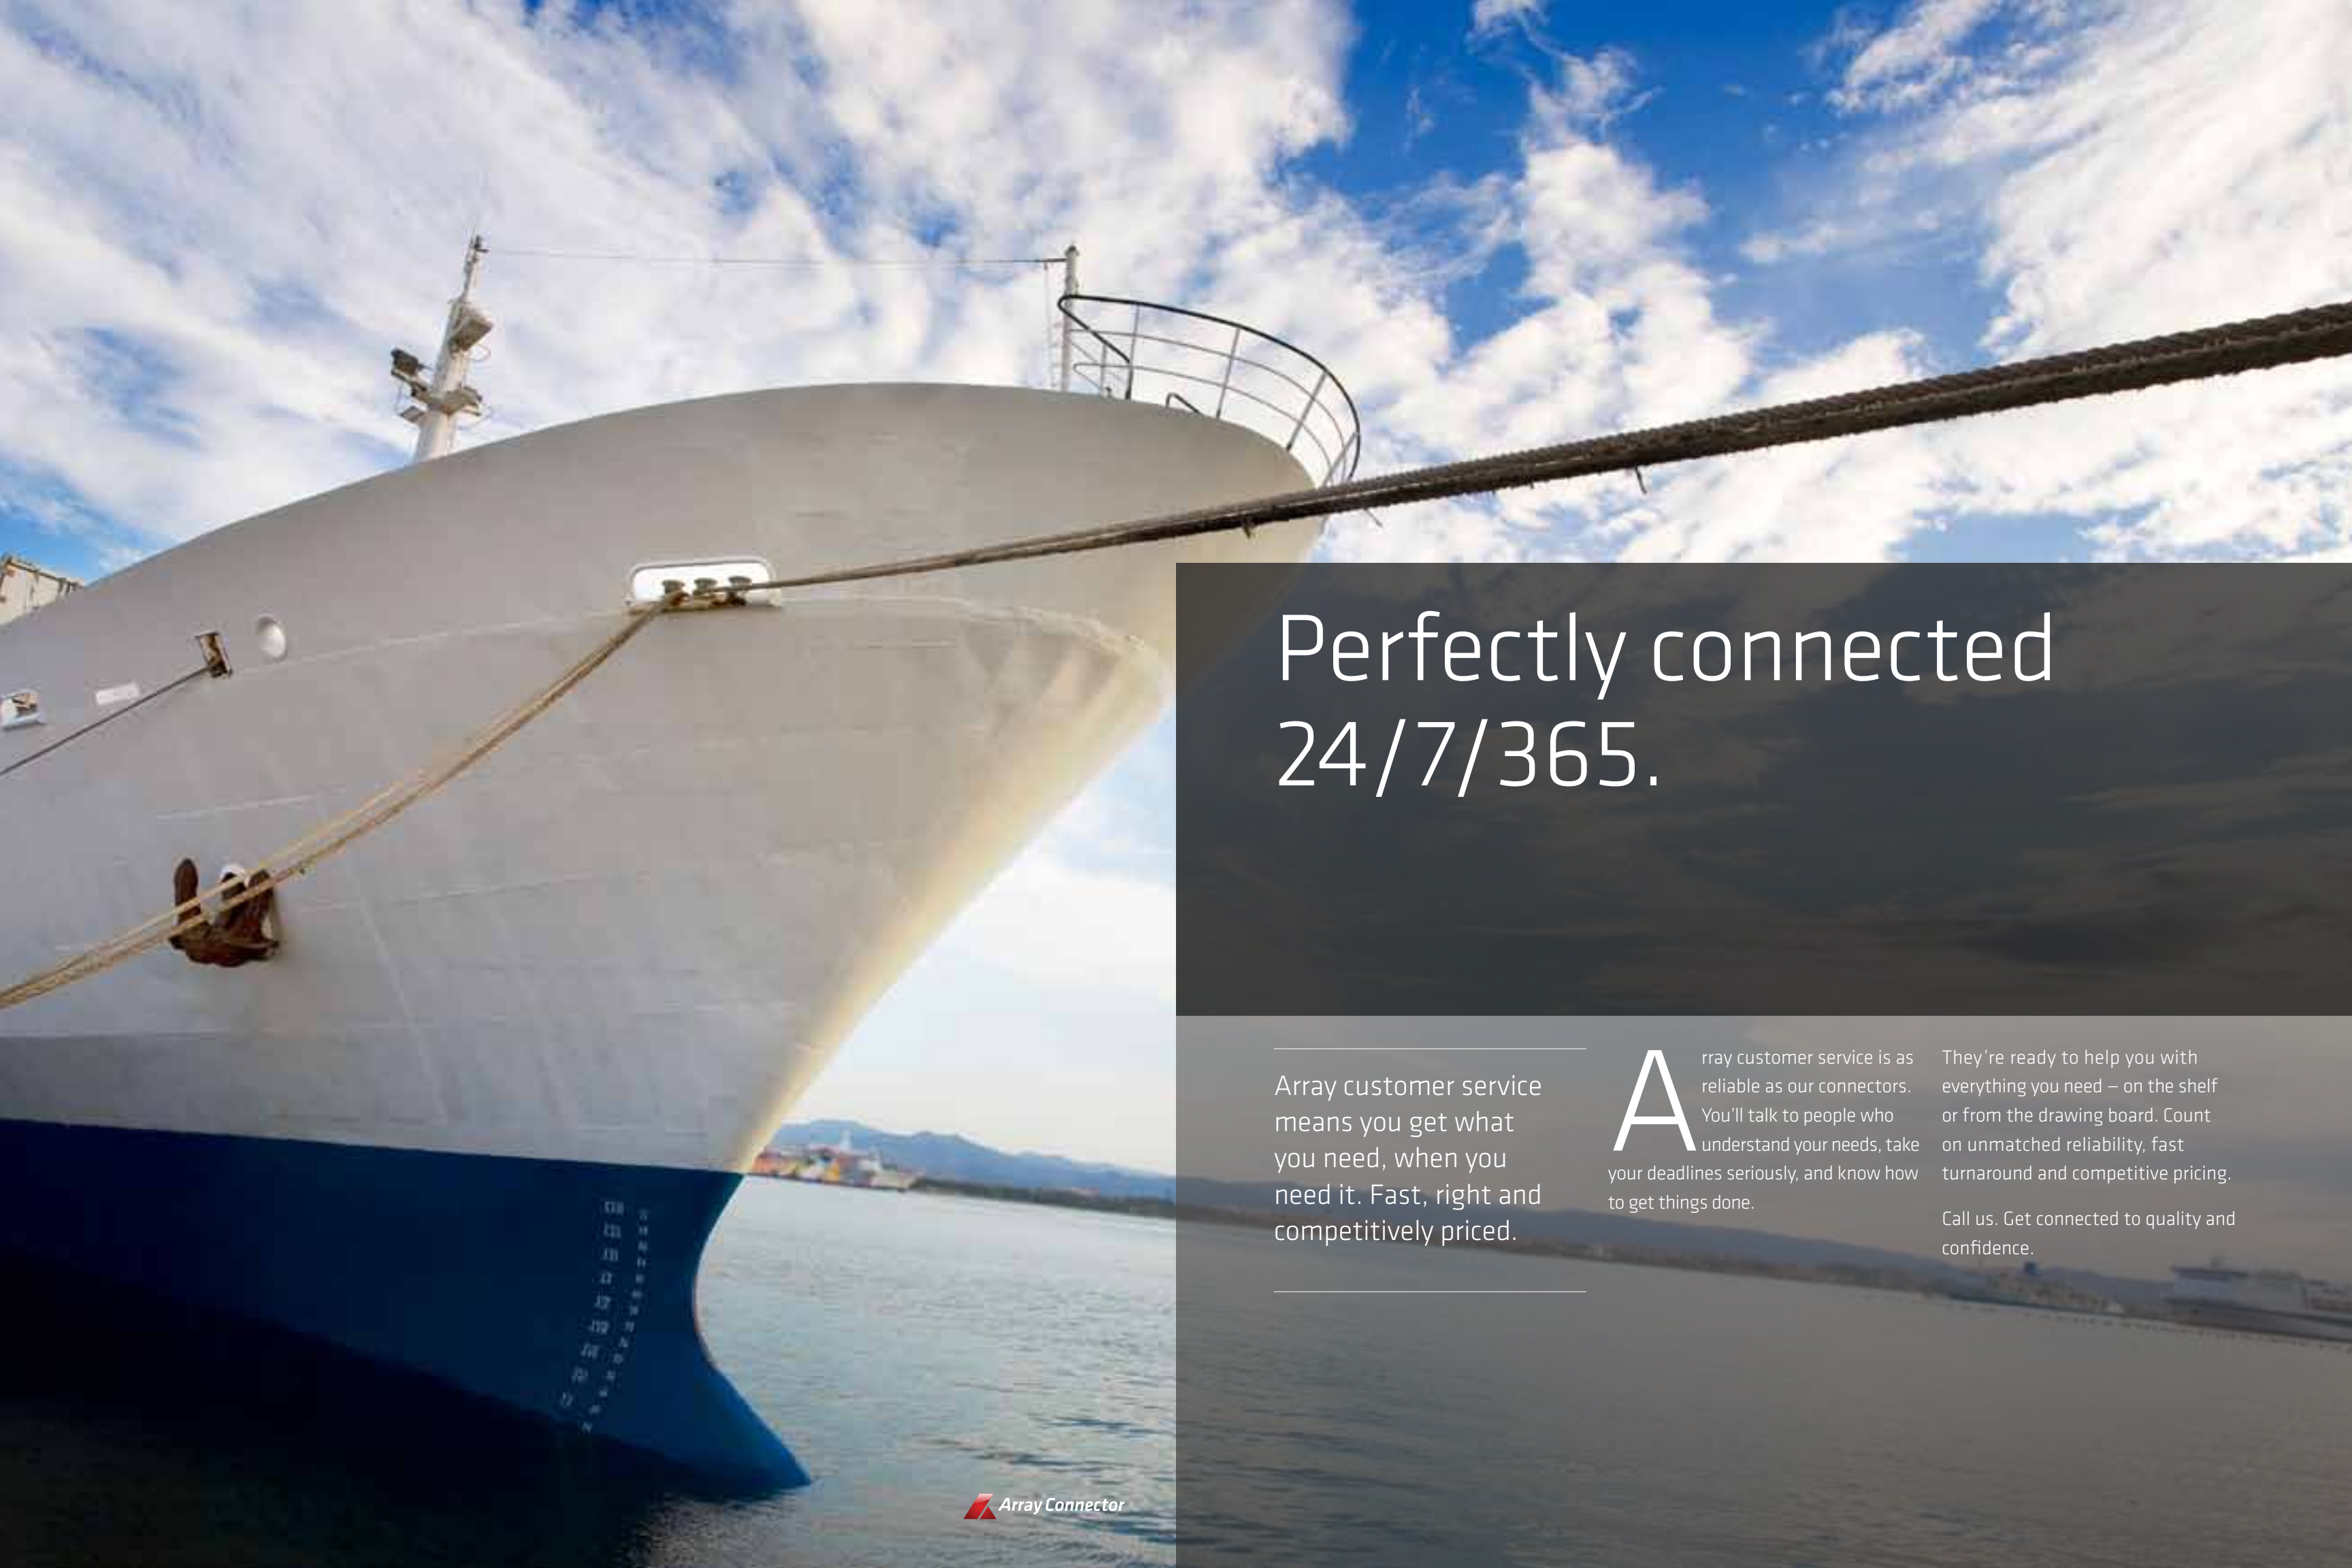

DESC and NAC through DCASMA Orlando, Motorola, Allied Signal Aerospace, General Electric and others.

- Inspection sampling plan is in accordance with MIL-STD-105 Level II, Normal.

- Inspection system qualified to NASA Handbook 5300.4 through Lockheed Space Operations Company.

- Test equipment calibration based on ISO 9001 and is traceable to NIST.

Array meets or exceeds the most respected testing and certification organizations in the industry. That's strong assurance that we have what it takes to get the job done right.

Perfectly connected 24/7/365.

Array customer service means you get what you need, when you need it. Fast, right and competitively priced.

Array customer service is as reliable as our connectors. You'll talk to people who understand your needs, take your deadlines seriously, and know how to get things done.

They're ready to help you with everything you need – on the shelf or from the drawing board. Count on unmatched reliability, fast turnaround and competitive pricing.

Call us. Get connected to quality and confidence.
